

Credit Card Processing Solutions from First Citizens Bank

If you currently accept credit cards for payment at your business or if you have ever thought of doing so, First Citizens Bank is here to provide you with a cost effective solution for all your credit card processing needs. As your partner, we are always looking for ways to keep your business running smoothly and profitably. After all, we believe your success will be our success.

Besides some of the lowest processing rates available, our state-of-the-art technology supports all major credit card platforms.

More importantly, our technology provides the most up to date data security when processing and transmitting your credit card transactions. Plus, we'll work with you every step of the way to find you the most cost-effective Credit Card Processing solution for your individual business needs.

All you expect and more!

Just as important, there are no long term contracts and next day funds are available if you close your credit card terminal by 6 p.m. EST.

If your business currently accepts credit cards for payment, simply contact one of our bank representatives today at 912.654.3411 and ask how you can receive a complimentary cost comparison on the rates and fees you are currently paying.

If your business does not currently accept credit cards for payment and you are interested in learning how accepting credit cards can increase your business and improve cash flow, we would welcome the opportunity to discuss merchant services with you.

As always, our first concern is you!
